## About me

Highly skilled and results-driven Front-End Developer with over 3 years of commercial experience in building dynamic web applications and innovative digital solutions. Proficient in **JavaScript**, **React**, **Next.js** and **Python**, with a strong background in both front-end and back-end development. Adept at creating engaging user experiences, optimizing business processes through automation, and delivering high-quality solutions. Known for strong problem-solving skills, creativity, and the ability to collaborate effectively in international teams.

## Experience

**RTB House** december 2022 - present  
Web Developer

- Built dynamic ads with **HTML5**, **CSS3**, **SCSS**, **JavaScript (component based)**, **EJS**, and deep learning tech in a component-based system.
- Developed advanced animations using **GSAP** and **HammerJS**.
- Translated designs from **Adobe Suite** and **Figma** into animated banners.
- Collaborated globally via ticketing (waterfall) and communicated technical details in English with international teams.

**Deloitte** october - december 2022  
RPA Developer (LAB)

- Automated workflows with **UiPath** and **Python**.
- Optimized call center ops using **CCC** (Chytre Call Centrum).
- Streamlined processes via RPA, cutting manual effort.

**SIS Auto & ZOZ Adamed** april 2021 - december 2022  
Front-end Developer

- Enhanced websites using **React & Next.js**, boosting UX & performance via **React Hooks** and lazy loading. Increased user engagement significantly.
- Managed data flow with **Redux & Context API**
- Administered and maintained IT network infrastructure, ensuring optimal performance and reliability.

**Vocab** june 2020 - november 2022  
Web Developer

- Built a **React & Next.js** e-learning platform for remote language learning with quizzes, grading, and paid courses.
- Integrated **HotPay** for payments, **Google/Facebook/OAuth 2.0** for secure authentication and other **APIs**.
- Ensured reliability through rigorous testing and debugging.
